

Our dive sites

Bamboo Point

(Depth: 60-1000 ft)

Enjoy this plunge into the darkness if you so desire. At 60 feet divers can sometimes catch a glimpse of a hawks-bill turtle or two meandering above the spectacular reef bottom that gives way to a 1000 foot drop where spotted eagles and southern stingrays abound.

The Cage (Depth: 90 ft)

Situated right on the wall, this open water aquaculture cage was planted by the Island School and used as research for the school's marine biology program. This cage has the most spectacular fish aggregation of all the dive locations. African pompanos, amberjacks, bull sharks, hammerhead sharks, and some of the largest grouper you have ever seen!

Hole in the Wall

(Depth: 110 ft)

This dive is one of the more exhilarating dives with a large swim through that takes you from the bottom at 70 feet

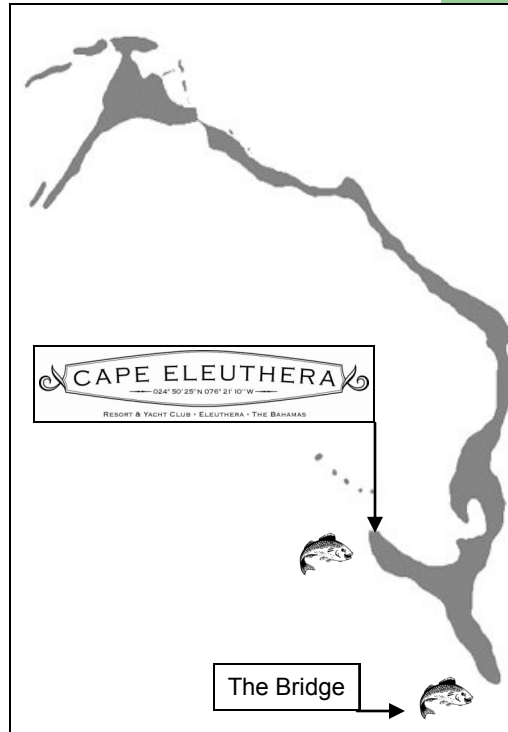

and spills you out of the wall at 110 feet where you will more likely come face to face with a loggerhead turtle and many of the larger fish. Recommended for the more experienced diver.

Diving in Pristine Eleuthera

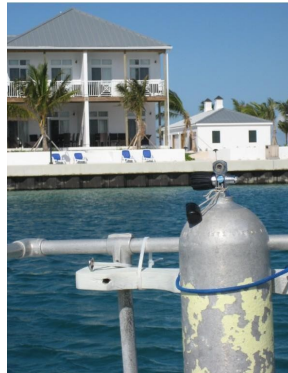

Crystal clear waters on Cape Eleuthera are a haven for snorkelers and divers to discover a fascinating undersea world. Experienced divers can explore the miles of underwater walls, caves and caverns of the Cape's famous blue holes.

The region surrounding the Cape and the offshore cays is rich with sea life while the white sand banks are home to hundreds of spotted dolphins. We have mapped numerous areas surrounding the resort and neighboring cays for the best snorkeling experiences. Snorkel equipment is available for rent at the resort. Daily excursions available.

Our Dive and Snorkel Center is the best all-around center for water sports on the island.
